

The All-New 2022 Golf R

The perfect Canadian sports car

Blue lines ahead

The Golf R sports an aggressive front bumper featuring large air intakes with a newly designed radiator grille and signature blue accents connecting updated LED headlights. Matte chrome mirror caps, a signature R design element, also make their return. The R design continues to the rear with a newly designed gloss black diffuser and of course, the signature Golf R quad exhaust system.

Introducing the latest edition of the legendary Golf R - the perfect Canadian sports car. Based on the all-new 8th generation Golf platform, the redesigned R as always features standard 4MOTION® All-Wheel Drive, now with a game-changing R-Performance Torque Vectoring rear differential. Fine-tuned on the Nürburgring Nordschleife, the Golf R even comes with a "Special" driving profile designed specifically for the world's most challenging racing circuits. Special indeed. Golf R comes available with a lightning-quick 7-speed dual-clutch DSG automatic transmission, but for drivers seeking a more classic experience, you can #savethemanuals with the standard 6-speed manual gearbox.

Top Features

315 hp turbocharged engine

The new Golf R is propelled by the latest "evo4" generation of Volkswagen's proven EA888 2.0 L turbocharged "TSI" 4-cylinder engine producing 315 horsepower and up to 295 lb-ft of torque in models equipped with the 7-speed DSG gearbox (280 lb-ft in manual models). Sending power to all four wheels through the 4MOTION® All-Wheel-Drive system, the Golf R sprints from 0 - 100 km/h in just 4.7 seconds (DSG models)*.

4MOTION® with R-Performance Torque Vectoring

The Golf R comes equipped with 4MOTION® All-Wheel Drive for sure-footed traction even in challenging conditions. Now featuring a new torque vectoring rear differential, Golf R can distribute the torque variably between the rear wheels, even sending up to 100% of the available power to the outside wheel when accelerating through a corner.

R-Performance Package

The standard R-Performance package includes a two-piece spoiler, 19" Estoril wheels, and two unique driving profiles, "Drift" and "Special (Nürburgring)" mode. With "Drift" mode, the Golf R changes its stability control parameters to ESC Sport. This allows the driver to drift by sending all available rear torque to the outside wheel. The "Special (Nürburgring)" mode on the other hand, instantly prepares the Golf R to tackle the most challenging racing circuits across the globe. After all, this mode is named after its testing grounds in Germany's legendary Nürburgring Nordschleife, sometimes referred to as "The Green Hell."

Head-Up Display

The standard Head-Up Display (HUD) in the R puts the most important information right in front of you to keep your eyes fixed on the road ahead. When enabled, part of the windshield becomes a projection surface to display speed, navigation instructions, and information from various driver assistance systems.

Digital Cockpit Pro

The Digital Cockpit Pro places all relevant instrumentation and vehicle performance data front-and-centre, all customizable on a 10.25" screen. A unique R display mode changes the layout of the instruments and puts a horizontal rev counter at the top of the cluster where it is always easy to see - particularly the integrated shift lights!

*Please drive safely and obey all local traffic laws, including speed limits.

Fully loaded Golf R

Standard features:

- 315 hp turbocharged engine

Volkswagen Accessories Warranty

If purchased at time of new vehicle purchase, accessories are covered by the new vehicle limited warranty[†] of 4 years or 80,000 km (whichever occurs first).

If purchased from an authorized dealer during the new vehicle limited warranty period, accessories are covered by the remainder of that period or limited warranty[†] of 2 years with unlimited kilometres (whichever is greater).

Built to the same quality standards as our cars and SUVs, our accessories are custom-fitted to each vehicle and designed to go the distance. Many accessories can also be included in your lease or finance payments to fit your budget.[‡]

©2021 Volkswagen Canada. Items, specifications, availability, standard features, options, fabrics and colours are subject to change without notice. Volkswagen Canada is not responsible for errors in typography or photography. Some features may be unavailable when your vehicle is built or available at extra cost. Although we endeavour to ensure that the information is accurate, as errors may occur from time to time, customers should contact their local Volkswagen dealer for details. Tires are supplied and warranted by their manufacturer. The vehicle is sold equipped with four all-season tires. However, please remember that the use of winter tires may be mandatory in your province or territory. Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear seats, using restraint systems appropriate for their size and age. The navigation system depends upon signals from the GPS network and is designed to provide you with suggested routes only. Discrepancies may occur between the mapping and the actual location due to changes in street names, construction or other road system changes which are beyond the control of Volkswagen Canada. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route.
