**CHEVROLET**

Trax Premier in Storm Blue Metallic  
(extra-cost colour).

## **EVERYTHING YOU NEED TO TAKE ON THE CITY.**

Keep on rolling. Don't let crowds, traffic or weather dampen your spirit. When you're driving the 2019 Chevrolet Trax, you own the city. That means slipping easily in and out of tight parking spots, while seating up to five adults to catch dinner or a show.

Trax also embraces your eclectic tastes. So it can accommodate the sculpture you couldn't resist at the craft fair or the ladder from the hardware store with the front passenger and rear seats folded down.

Of course, you don't do the city without sound. So there's Apple CarPlay<sup>®1</sup> or Android Auto<sup>™2</sup> compatibility to keep you in tune.

Trax is the small SUV that is as versatile as you are, ready to take on the demands of the city – and your life.

## ADVANCED SAFETY TECHNOLOGY HELPS YOU COVER THE ANGLES.

**FORWARD COLLISION ALERT.** This available feature is engineered to monitor how close your vehicle is to a detected vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it is designed to alert the driver to a potential crash. It also can warn the driver if their Trax is following a detected vehicle much too closely.

**LANE DEPARTURE WARNING.** This available camera-based system is designed to read traffic lane markings, when identifiable, and provide audible and visual alerts if the vehicle drifts out of its detected lane when the driver is not actively steering and the turn signal is not activated.

**SIDE BLIND ZONE ALERT.** With radar sensors on both sides of the vehicle, available Side Blind Zone Alert is engineered to help warn the driver when detected moving vehicles are in the vehicle's side mirror blind zones and indicates their presence with LED-lit symbols in the exterior mirrors.

**REAR CROSS TRAFFIC ALERT.** Using radar sensors, this feature is designed to alert the driver to crossing traffic behind Trax when in Reverse. Audible warnings, as well as visual alerts on the Rear Vision Camera screen, are triggered if approaching vehicles are detected. Standard on Premier, available on LT.

**REAR PARK ASSIST.** This feature is designed to alert the driver, when in Reverse, by sounding an audible alert and providing visual indication on the Rear Vision Camera display when it detects certain stationary objects in close proximity behind the vehicle. Standard on Premier, available on LT.

**REAR VISION CAMERA.** When the transmission is in Reverse, the Rear Vision Camera with dynamic guiding lines allows the driver to view objects directly behind the vehicle via the screen in the centre stack. So it's easier to back up or park.

**10 STANDARD AIRBAGS!** Every Trax includes frontal and knee airbags for driver and front passenger, head-curtain and seat-mounted side airbags for front and rear outboard seating positions.

**ONSTAR AUTOMATIC CRASH RESPONSE.** In a crash, built-in sensors are designed to send a signal that can alert a specially trained, Emergency Medical Dispatch-certified advisor<sup>2</sup> who can help you get the assistance you need – even if you can't ask for it. The advisor can use GPS technology to help pinpoint your location and request emergency help. This service requires a paid subscription to the OnStar Safety & Security Plan<sup>3</sup>

*Safety starts with you. Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for important feature limitations and information.*

<sup>1</sup> A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and child safety seat instructions for more safety information. <sup>2</sup> OnStar Emergency advisors are certified by the International Academies of Emergency Dispatch. <sup>3</sup> OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. Roadside services provided by Allstate Roadside Services. Limitations and restrictions apply. Stolen Vehicle Assistance requires armed factory-installed theft-deterrent system and selection of notification communication preference(s). These services are intended to assist with vehicle recovery and do not prevent theft or protect against damage or loss. Additional messaging and data rates may apply. Services are subject to user terms and limitations, and vary by vehicle model. Visit [onstar.ca](http://onstar.ca) for more details.
