INTERIOR PROTECTION

10 Year Protection Plan

Honda Plus Fabric Protection is a durable automotive grade formula specifically designed for carpet and upholstery protection. Penetrating deep into the fabric and forming an invisible shield around each and every fibre, this delays and inhibits the penetration of frustrating spills such as coffee, tea, milk and soda – without affecting the fabric's natural texture. This product is backed by a fully insured warranty and guaranteed to last.

Honda Plus Leather & Vinyl Protection creates an invisible semi-permeable barrier which protects all leather and vinyl surfaces from accidental spills. Its unique chemistry allows the leather to breathe naturally and maintain the necessary natural moisture balance to ensure a smooth supple finish for a long time.

EXTERIOR PROTECTION

10 Year Protection Plan*

Honda Plus Exterior Paint Protection bonds to the painted surface in a continuous film that acts as a sacrificial barrier between the paint and the destructive elements your vehicle faces every day. The unique transparent cross-link polymer formulation features durable fluoro polymer additives and ultraviolet filters. Paint technology has advanced significantly over the years and so have the number of environmental hazards that can harm your vehicle's finish.

*Exterior Paint Protection must be reapplied in the 5th year to extend coverage for a total of 10 Years. Crystal Cleararm does not require a reapplication and has 10 Year coverage.

CORROSION PROTECTION

10 Year Protection Plan (Perforation from the Inside – Out)

Honda Plus Corrosion Protection is a two-stage process featuring an almost invisible upper body liquid that is designed to penetrate deeply into seams and crevasses and around welding spots to keep air and water out. The liquid is also designed to be exceedingly flexible to allow it to expand and contract with temperature changes. The most visible part of the process is our Honda Plus Vulcanized Undercoating/Sound Shield, a very durable and flexible rubberized coating that not only provides protection against corrosion, but insulates your vehicle from excessive road and engine noise.

HONDA PLUS PREMIUM CORROSION

Honda Plus Premium Corrosion Protection introduces a premium suite of combined corrosion protection plan coverages. Honda Plus Surface Rust Protection provides coverage against aesthetic surface corrosion for the first five years of ownership. This additional coverage will pay up to two repairs per coverage plan for surface rust or blistering 2cm or larger on the exterior painted panels of your vehicle, even the roof!

Honda Plus Surface Perforation Protection provides 10 year coverage against metal perforation from the outside – in, even if it's caused by a stone chip or a scratch.

Honda Plus Extension of OEM Sheet Metal Coverage to 5 years. Honda Plus will extend this coverage from 3 years to a total of 5 years. (Some conditions apply, must have valid coverage at time of sale).
