CANADA'S LONGEST-LASTING HEAVY-DUTY DIESEL PICKUP^{1*}

BUILT TO GIVE ITS ALL. You don't stop moving. You don't put in half days. You don't play unless it's to win—and you expect the same from your truck. It's why you count on Ram Heavy Duty. The 2021 Ram Heavy Duty lineup is built to haul and tow like a pro; to use technology that not only makes the drive easier, but more entertaining. As Canada's longest-lasting heavy-duty diesel pickup¹, it's also built to go the distance.

RAM 3500: GAS PAYLOAD
UP TO **7,680** LB (**3,484** KG)*

6.7L CUMMINS® HIGH OUTPUT TURBO DIESEL I-6

420 HP **1,075** LB-FT OF TORQUE

A TRUE POWER PLAYER. The available 6.7L Cummins Turbo Diesel I-6 engine delivers commanding responsiveness. The High Output version is paired with the AISIN® 6-speed transmission and offers Best-in-Class torque²—up to 1,075 lb-ft on Ram 3500. The standard output, with 370 hp and 850 lb-ft of torque, teams up with the long-proven 68RFE 6-speed automatic transmission. Both of these powertrains deliver outstanding performance and effortless cold-start ability.

THE 68RFE AUTOMATIC TRANSMISSION. Designed for Ram trucks with the Cummins standard output engine, the 68RFE features an upgraded filtration system and bandless design that helps reduce maintenance requirements. Dual fluid filters, a dual-face torque converter lockup clutch for the 2nd through 6th gears and an integrated Tow/Haul Mode provide an alternative shift schedule.

THE AISIN AS69RC AUTOMATIC TRANSMISSION. Engineered to handle the colossal torque of the Cummins High Output, the AISIN delivers seamless shift quality thanks to a sophisticated transmission controller, a state-of-the-art dual-core processor, a robust ring gear, a large thrust bearing and heat treatments for select components.

6.4L HEMI® V8 WITH VCT AND MDS

410 HP **429** LB-FT OF TORQUE

A PROVEN, CAPABLE PERFORMER. The 6.4L HEMI V8 boasts Best-in-Class standard gas horsepower² and impressive towing and payload numbers. Variable Cam Timing (VCT) provides consistent power across a wide torque band. FuelSaver Multi-Displacement System (MDS) technology delivers 4-cylinder efficiencies during highway cruising, along with the interactive Deceleration Fuel Shut-Off (iDFSO) feature.

THE ZF 8HP75 8-SPEED AUTOMATIC TRANSMISSION. The 6.4L HEMI V8 includes the smooth-shifting TorqueFlite® 8HP75 8-speed automatic transmission. There are more than 40 individual shift maps to refine shift points for optimal efficiency, performance and drivability. The transmission uses shift-by-wire technology, engineering that eliminates a mechanical linkage between the transmission and the gear selector. Ram Heavy Duty models equipped with the gas engine and 8-speed transmission use an innovative rotary shifter mounted on the left side of the instrument panel's centre stack—in Black or Satin Chrome, depending on trim level.

STRENGTH FROM THE INSIDE OUT

CANADA'S LONGEST-LASTING HEAVY-DUTY DIESEL TRUCK¹ Strength that endures is reflected in durable, real-world figures. Ram Heavy Duty has the highest percentage of diesel trucks sold over the last 25 years still on the road versus any other heavy-duty truck brand¹.

Performance, capability and even technology won't mean much if they're not built on a solid foundation. That's why the Ram Heavy Duty frame was engineered to withstand the heavy-duty assignments our drivers demand of it. Strength that endures doesn't mean merely one thing. In a Ram Heavy Duty, it means everything.

Count on robust
**63,000-psi
high-strength steel**
for the engine crossmember.

Refined axle housing
helps reduce Noise,
Vibration and Harshness
(NVH) (4x4 truck models).

**Best-in-Class
trailer capability²—
up to 37,100 lb (16,828 kg)—**
with the available Cummins®
High Output Turbo Diesel I-6
engine (Ram 3500).

**Auto-Level Rear Air
Suspension with Bed-
Lowering Hitching Assist,**
controlled with the touch
of a button. (Available.)

**9.25-inch (234.9-mm)
front axle**
featuring durable pinion seals
(4x4 truck models).

Resilient high-strength steel
comprises 98.5% of the
Ram Heavy Duty frame.

**Frequency Response
Damping (FRD) shocks** and
**tough, progressive-rate
coil springs** provide ideal
suspension tuning
(2500).

Robust conventional
hitch capability:
up to 23,000 lb (10,430 kg)*
(3500).
up to 20,000 lb (9,072 kg)*
(2500).

*When properly equipped.

Limited in Maximum Steel Metallic.
Properly secure all cargo. Always tow within the vehicle's capacity.

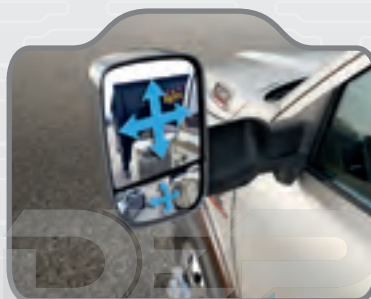

DELIVERING AN EASIER, SMARTER WAY TO TOW

NEW AVAILABLE DIGITAL REARVIEW MIRROR³

An LCD monitor displays real-time video that improves the driver's ability to see behind the vehicle. Buttons on the mirror adjust brightness and shift the displayed image up and down for customized viewing.

TOWING TO THE MAX

THE MAX TOW PACKAGE FOR 3500. This available comprehensive towing package includes the 30K Fifth-Wheel Hitch, the Fifth-Wheel/Gooseneck Prep Group, Auto-Level Rear Air Suspension, Cargo-View Camera,³ Trailer Brake Controller and DOT Safety Kit. The numbers: Best-in-Class towing up to 37,100 lb (16,828 kg)² with gooseneck and up to 30,000-lb (13,608-kg)* towing for fifth-wheel applications.

GOOSENECK TOWING. The available Fifth-Wheel/Gooseneck Prep Group includes everything needed for heavy-duty towing: gooseneck bolt plates and centre castings, 4-/7-pin trailer connector and a rear in-bed integrated 7-pin connector or 7-/12-pin connector if equipped with the Auxiliary Camera Prep Group.

FIFTH-WHEEL TOWING. Capability comes from the fully integrated rear-axle crossmember on all frames. Available fifth-wheel hitch mounting hardware is integrated into the production box floor—and includes fifth-wheel pucks.

*When properly equipped.

DEALER PROCESS

CLASS-EXCLUSIVE⁴: AVAILABLE AUTO-LEVEL REAR AIR SUSPENSION

Properly secure all cargo.

RAM ENGINEERING HELPS YOU CARRY IT ALL—AND AT YOUR LEVEL BEST.

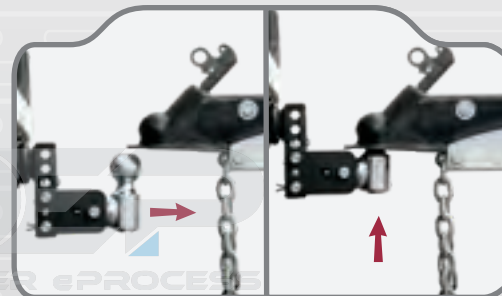

RAM 2500. The Class-Exclusive rear link coil suspension⁴ is enhanced with smart tuning dynamics for an impressive ride. This pickup features Frequency Response Damping (FRD) shock absorbers, progressive-rate coil springs and a refined bushing set.

RAM 3500. Technology makes easier work of huge towing and payload jobs. Our standard rear leaf-spring suspension uses two-stage longitudinal leaf springs, while the bushings serve to enhance durability and increase strength.

AUTO-LEVEL REAR AIR SUSPENSION.

With engineering specific to each weight class, the available system features a self-levelling Payload Mode, a Trailer-Tow Mode that keeps an even rake between trailer and truck, and a Bed-Lowering Mode to make trailer hookups easier than ever.

BED-LOWERING MODE. The available Auto-Level Rear Air Suspension System simplifies ball/hitch alignment, counteracts weight from trailering/hauling, maintains an even and level profile when loaded, and keeps rake constant from the front end to the rear of the trailer.

SECURITY ON EVERY TOW: TRUCK AND TRAILER

BLIND-SPOT MONITORING (BSM) WITH REAR CROSS-PATH DETECTION³. Ram Heavy Duty delivers numerous standard and available safety and security features for long-haul confidence. With dual wide-band radar sensors in the taillamps, the available BSM with Rear Cross-Path Detection³ scans blind spots behind the vehicle to help ensure safe manoeuvring while automatically sensing and accounting for the length of your trailer.

Available Lane Departure Warning³ uses a forward-facing camera that can detect your vehicle's position and lane markings on the road. The system helps prevent unintentional lane drifting by providing a visual alert before safely guiding the vehicle back into position.

Properly secure all cargo. Always tow within the vehicle's capacity.

ACC³ AND FCW³ WORK WITH LOADED TRAILERS UP TO 37,100 LB (16,828 KG).

FORWARD COLLISION WARNING PLUS (FCW)³ This system notifies the driver through multiple warnings when the vehicle gets too close to a preceding vehicle. If the driver isn't braking enough, Auto Emergency Braking automatically takes over, dramatically increasing braking, and can even bring the vehicle to a full stop to help avoid a collision. FCW³ also works with attached trailers and can engage the trailer brakes. Available.

PARK-SENSE[®] FRONT AND REAR PARK ASSIST.³

Integrated sensors in the front and rear bumper valences use ultrasonic waves to determine the relative distance to objects in front or in back of your pickup. If an obstacle is detected when backing up or moving forward during parking manoeuvres, visual and audio signals inform the driver. Available.

ADAPTIVE CRUISE CONTROL WITH STOP (ACC)³ This system can maintain a driver-selected set distance from vehicles in the lane ahead. When slower traffic is detected, Ram Heavy Duty will automatically adjust its speed all the way down to 0 km/h, even with a trailer attached. Available.

PREMIUM MATERIALS

Brawn and beauty collide through available premium materials, real-wood accents, metal and a distinctive colour palette.

LIMITED

Limited interior in Light Frost Beige/Indigo.

LARGE AND LUXURIOUS

SURROUNDED IN LUXURY. Regardless of trim level, you can be sure your Ram Heavy Duty is as refined as it is capable. Stocked with integrated technology, premium materials, comfortable seating and modern design, Ram truck interiors rival those of luxury cars.

Your devices, tools and other travel items stay organized and out of sight thanks to an abundance of storage options.

MEGA CAB® MODELS. These models boast impressive interior storage options: 43 inches (1,092 mm) of rear-seat legroom and 8 inches (203 mm) of storage space behind the rear seat. In addition to the available Class-Exclusive reclining rear seat⁴ is an available and Class-Exclusive forward-fold-flat rear seat⁴ that can turn into a completely flat cargo-carrying surface.

DEALER PROCESS

TOUCHSCREEN TECHNOLOGY

Uconnect® offers a variety of systems to help keep you informed, entertained and connected. Options include the top-of-the-line Uconnect 12 NAV system with Largest-in-Class 12-inch touchscreen⁴, popular 8.4-inch display and the fully capable 5-inch Uconnect system. Availability and features depend on which Ram Heavy Duty model you choose.

LARGEST-IN-CLASS 12-INCH TOUCHSCREEN MEDIA CENTRE⁴

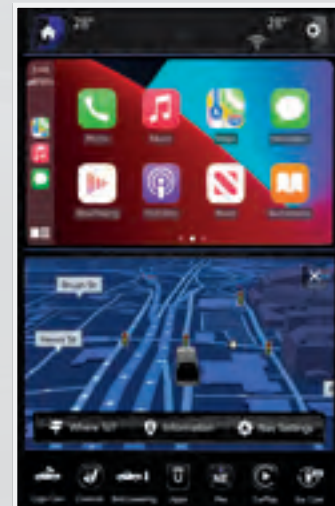

CHOSEN BY YOU. CUSTOMIZED BY YOU.

This is user-friendly technology that delivers premium levels of entertainment, communications, comfort and convenience. Ram Heavy Duty offers a wealth of technologies that do it all. Among them is the latest generation of the Award-Winning Uconnect® systems, built-in cellular connectivity, and personalized settings for available features like heated/ventilated seats, Keyless Enter 'n Go™—and much, much more.

12-INCH TOUCHSCREEN FOR EASY VIEWING.

Standard on Limited models and available on Tradesman®,* Big Horn®,* Power Wagon®, Laramie® and Limited Longhorn® models.

Apple CarPlay shown.

SiriusXM⁵ features the comprehensive 360L: 200 channels and 5,000 hours of on-demand content (includes one-year trial subscription).

Apple CarPlay⁶ makes in-vehicle iPhone use easy and safe. Your call: use the touchscreen or Siri voice commands.⁷ Available.

• **ANDROID AUTO™** brings your favourite smartphone apps into one place, making it easier for you to access your favourite navigation, media, and communication apps on the road while minimizing the distractions. Drivers can talk to Google and get things done with your voice by keeping your eyes on the road and hands on the wheel.

• **SiriusXM Guardian⁸** Connected Services with the Uconnect App offer remote services that let you start your car from afar,⁹ unlock doors or flash your headlights—all from your smartphone (includes one-year trial subscription). Available.

• **SiriusXM Traffic Plus¹⁰** and **SiriusXM Travel Link¹⁰** feature a five-year trial subscription and include a wide range of services and conveniences. Among them:

• **Travel Link¹⁰**. Access useful information when you need it, right at your fingertips. Get detailed weather maps, five-day forecasts and severe weather alerts, as well as sports scores and in-game weekly schedules for your favourite teams, information on fuel prices in your area and more. Your first five years of SiriusXM Travel Link¹⁰ service are included. Available.

• **Traffic Plus¹⁰**. Avoid congestion before you reach it. Get continuous updates on traffic speed, accidents, construction, road closures and more before you begin your travels. You will get to your destination faster and more easily than ever before. Your first five years of SiriusXM Traffic Plus¹⁰ service are included. Available.

⁹Late availability.

CONNECTED AND IN COMMAND

ELEVATE YOUR IN-CAB ENTERTAINMENT. Ram Heavy Duty doesn't just bring you next-level available entertainment features, but also offers advanced technologies that keep you and your truck connected to the world around you through a variety of available Uconnect® systems.

FULL-COLOUR CONTROL AT YOUR FINGERTIPS. No vehicle in the class has a larger touchscreen radio⁴. From the available 12-inch touchscreen media centre, you can customize your view for full- or split-screen capability. Pinch-to-zoom technology and physical controls make it easy to access key radio and connectivity features. Full-screen navigation helps keep you on course, while SiriusXM with available 360L⁵ keeps you entertained.

Every Ram Heavy Duty boasts standard acoustic glass as well as Active Noise Cancellation that's tied into the audio system. The result is a cabin that's luxury-car quiet.

CHARGING SOLUTIONS. The front of the centre console houses an auxiliary input and two sets of USB connections (Type-A/C pairs). There is also a phone shelf to hold smartphones with an available integrated wireless charging pad.

CONNECTIVITY FOR EVERYONE. Rear-seat passengers are also treated to multiple amenities, with two available USB connection points (Type-A/C pairs) and a 115-volt, 400-watt outlet conveniently located on the rear of the centre console. The two-cup-holder space also offers the ability to mount a tablet for rear-seat viewing.

THE HARMAN KARDON® ALTERNATIVE. A premium pickup warrants a premium sound system. The available Harman Kardon comes with a 750-watt audio system that features the highest number of speakers in the segment⁴: 17 strategically located speakers, including a subwoofer, that deliver balanced sound the way it's meant to be heard.

Images are for illustrative purposes only and may not reflect exact software for your vehicle.

NEW RAM HEAVY DUTY OFF-ROAD PAGES

Off-Road Pages provide a variety of gauges and real-time data including: Pitch & Roll, Steering Angle, Vehicle Dynamics, Engine Performance and more. This feature is included with the Uconnect® 4C NAV¹¹ with 8.4-inch touchscreen and Uconnect 12 NAV¹¹ systems.

Power Wagon® in Granite Crystal Metallic.

Pitch & Roll (12")

Camera (12")

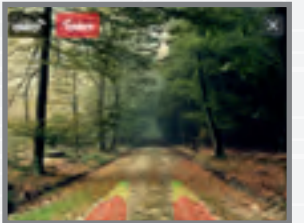

Gauges Pages (12")

Vehicle Dynamics (8.4")

Pitch & Roll (8.4")

Camera (8.4")

Gauges Pages (8.4")

NEW AVAILABLE TRAILER LIGHT CHECK

When the vehicle is in Park and the Park brake is set, one person can exit the vehicle and verify trailer light status without assistance. It's never been easier to inspect the trailer lights as they turn on and off in the following sequence: running lights, left turn signal, right turn signal, brake lights and Reverse lights.

CRITICAL SYSTEM INFORMATION AT YOUR FINGERTIPS

RECONFIGURABLE DRIVER INFORMATION DISPLAY.

The available in-dash 7-inch full-colour, customizable, in-cluster display centre allows you to observe important vehicle functions. From the high-definition screen, you check the status of the available Blind-Spot Monitoring System³, view real-time tire pressures and more.

You can monitor data that's critical when trailering—like the settings of the available Trailer Brake Controller and whether you should modify them. It's all easily accomplished by the settings and controls on the centre stack.

RAMBOX® SYSTEM

RAM HEAVY DUTY TAKES ON ANY CHALLENGE. The available Class-Exclusive RamBox Cargo Management System⁴ literally brings storage out of the cargo box. Best of all, these storage bins are weatherproof, lockable, drainable and equipped with downward-facing illumination.

115-VOLT POWER OUTLET.

Whether for work or play, there's always a need for extra power. That's why there's a 115-volt power outlet located on the inside wall of the driver's-side RamBox System bin.

DESIGNED TO WORK FOR YOU

Ram Heavy Duty offers plenty of smart solutions to make sure whatever it is you're transporting goes with ease. All features are designed to work together, like the available RamBox® System, which gives you more storage without sacrificing precious bed space. There is still plenty of room to carry wide cargo, like standard 4x8-foot sheets of building materials.

A BETTER TAILGATE. An available damped tailgate opens more slowly and closes with less effort. The tailgate also features an available power-release function; open it with the key fob button or via the in-cabin control.

BED STEP. The foot-actuated Mopar® Bed Step eases access to the bed and hides out of sight when not in use. Available as a factory-installed option or as a stand-alone Mopar Accessory.

IN-BED LED LIGHTING. Controlled by a switch or activated when the unlock button on the key fob is pushed, the available side cargo-bed lights provide convenient illumination.

MANAGE YOUR CARGO. For additional cargo organization, opt for the RamBox Utility Group that includes a stowable bed divider and a cargo rail system with four adjustable tie-down loops.

NEW 115-VOLT POWER OUTLET. Whether for work or play, there's always a need for extra power. That's why there's an available 115-volt/400-watt power outlet located at the rear, left inside of the pickup bed.

LIMITED

REFINED AND LUXURIOUS. In Single- or Dual-Rear-Wheel (SRW/DRW) configurations, Ram Heavy Duty Limited boasts a corrugated mesh grille, striking chrome accents and power running boards. The powerful stance is flanked by 20-inch (SRW) or 17-inch (DRW) wheels.

DRW = Dual-Rear Wheel. Weights given in kg (lb). Payload and Max Trailer Weights are ESTIMATED values and rounded to the nearest 5 kg (10 lb). Payload = GVWR - Base Weight. Payload and Trailer Weight Rating are mutually exclusive. GAWRs, GVWRs and GCWRs should never be exceeded. Trailer Weight Rating and Tow Vehicle Trailering Weight are calculated as specified in SAE J2807. Passenger Weight = 136 kg (300 lb). Options Weight = 45 kg (100 lb). Trailering Equipment Weight: 34 kg (75 lb) for conventional hitch, 32 kg (70 lb) for gooseneck and 113 kg (250 lb) for fifth wheel. Tongue weight: 10% of the gross trailer weight for conventional hitch, 15% of the gross trailer weight for a fifth-wheel or gooseneck hitch. Payload and GAWR should never be exceeded and must account for all of the above weights, including the appropriate trailering equipment and tongue weight. Box-Off Body Completion Weight = 36 kg (80 lb) per foot from end of cab to end of frame. The maximum tongue weight for Class V (hitch receiver) is limited to 816 kg (1800 lb). A fifth-wheel or gooseneck hitch is required for trailers over 8165 kg (18,000 lb). The 6260-kg (13,800-lb) GVWR stated for Regular Cab, 4x2, 6.4L V8 with 4.10 axle ratio, applies to Tradesman® Package only. For all other configurations (Regular Cab, 4x2, 6.4L V8 with 4.10 axle ratio), the GVWR is 6214 kg (13,700 lb).

WARRANTIES: 2021 Chrysler, Jeep, Dodge and Ram vehicles are backed by a 5-year or 100,000-kilometre* fully transferable Powertrain Limited Warranty with \$0 deductible plus 24-hour roadside assistance. Basic Warranty coverage is for 3 years or 60,000 kilometres* Rust-through coverage on all body sheet metal is for 3 years. The Cummins Turbo Diesel engine is protected by a separate Limited Warranty, covering the engine for 5 years or 160,000 kilometres.

*Whichever comes first. Some conditions may apply. The 5-Year/100,000-Kilometre Powertrain Limited Warranty does not apply to vehicles sold for certain commercial uses. See your retailer for full details.

MOPAR VEHICLE PROTECTION: FCA Canada Inc. has a vested interest in your satisfaction and owner experience with your new Ram truck. Mopar Vehicle Protection offers extended service plans to help ensure that you'll enjoy your truck for many years down the road. For more information on comprehensive vehicle coverage, see your Ram retailer, call 800-465-2001 or visit fcanada.ca/owners

DISCLAIMERS: 1) Based on a comparison of IHS Markit Canadian Vehicles in Operation and New Registration data as of July 1, 2020. Includes all Model Years 1996-2020 heavy-duty diesel pickups, with series 250/2500 and 350/3500, continuously sold since 1995 and have the highest overall average percentage still in operation. 2) Based on 250/2500 and 350/3500 class pickups. When properly equipped. 3) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. 4) Based on 250/2500 and 350/3500 class pickups. When properly equipped. 5) Requires SiriusXM radio subscriptions governed by SiriusXM Canada Customer Agreement available at www.siriusxm.ca/terms. 6) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Apple CarPlay requires a compatible iPhone connected via USB cable to the Uconnect system. Android Auto requires the Android Auto App on Google Play and an Android compatible smartphone running Android 6.0 or higher. Data plan rates may apply. 7) Siri Eyes Free requires an iPhone equipped with Siri. Certain features not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. 8) All SiriusXM Guardian equipped vehicles come with a 12-month complimentary trial effective on the date of purchase or lease of a new vehicle. Enrolment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States, Puerto Rico and Canada. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. 9) Remote Vehicle Start not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. You must have an active subscription to SiriusXM Guardian in order to use remote services. See Terms of Service for service limitations. 10) SiriusXM Traffic Plus and SiriusXM Travel Link requires a subscription, sold separately or as a package, by SiriusXM Radio Inc. **If you decide to continue service after your trial period included with the new vehicle purchase, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Trial service is not transferable. Fees and taxes apply. Please see the Customer Agreement at www.siriusxm.ca for complete terms and how to cancel, which includes calling SiriusXM at 1-866-539-7474. All fees and programming are subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Data displays and individual product availability vary by vehicle hardware. Current information and features may not be available in all locations, or on all receivers. Weather Forecast, Current Conditions may not be available in all locations. 11) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. 12) Only available with automatic transmissions. 13) Vehicle must be locked and system activated for alarm to sound. 14) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. 15) The Advanced Front Air Bags in this vehicle are certified to the Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 16) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 17) Not compatible with all garage door openers.
