

ceramx

EXTERIOR PROTECTION

UV RESISTANT

CHEMICAL RESISTANT

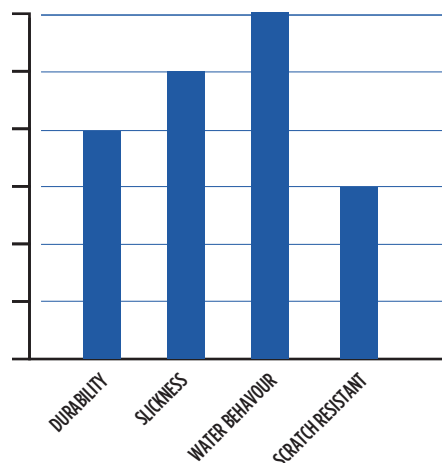

WATER REPELLENT

SCRATCH RESISTANT

CERAMX The high-quality CERAMIC coating has even more properties to prolong and improve the exterior of a car, including: Hydrophobic characteristics, chemical resistance, and day-to-day wear protection. CERAMX has a higher refractivity, allowing for a gloss of sheer radiance and brilliance. The main chemical composition of CERAMX is SILICON CARBIDE, the same material used in bullet proof vests and ceramicbrakes. CERAMX Nano Technology allows for an unparalleled level of protection.

MOHS HARDNESS SCALE

Modern Clear Coat	2H	Knife Blade	5-6.5H
Fingernail	2-2.5H	Steel File	6.5H
Copper Penny	3H	 ceramx 9H	
Nail	4H		
Glass	5.5H	Diamond	10H
